NEPTUNE

A NOTE TO READER

The name NEPTUNE pays homage to our Grandmother planet in our galaxy, and the protector of the pure Waters, dream realms and diamond mind.

NEPTUNE is here to encode the Deep Feminine into the new cultural Operating System (OS). One may “categorise” us as a “Special Forces” team that works discretely behind the Gates of power on the planet and in accordance to deep Time. We are oracles, daikinis and weavers of Genius beings, and Stewards of the new Synarchy.

We are Honoured to offer “Oracleship as a Service” to serve the Avant Garde Leaders behind Essential organisations on the Planet to upgrade themselves, their teams and the organizational intelligence towards the highest evolutionary Design. We listen for the call when there is timely Alignment with meaningful Legacy projects ≈ philanthropic organisations and civically-oriented projects looking to shift consciousness and systems from the Causal root & up at this moment on Earth.

We see these offerings as a contribution towards the evolution & transmutation of our existing understandings of Organizational Development / City Design / Philanthropy into a Living Praxis and Curricula for Game B organisations.

As we are still early in the Exploratory phase, this document remains a synthesized taxonomy of possible offerings over a long-term Timeline – which will require further precision and tailored proposal. This is as the first exploratory step towards deeper listening to what Wants to Be.

May the merits of these offerings serve for the benefit of all sentient beings, in all timelines.

NEPTUNE

WORKING WITH NEPTUNE

Everything is Custom by nature of the Precision required of this work – there no pre-sets. Based on prior experience, we prefer to work in Retainer format, as co-designed through a deep listening process. In order to do this work in earnest and with Causal impact, we recommend committing to at least a 1-year contract that can be renewed annually – considered as your “Special Forces” team.

1. Monthly Retainers (recommended 3-month minimum)
2. Annual Retainers
3. Project-Based Agreement (fixed fee and timeline)
4. Hybrid cash / equity agreements (rare cases, based on relationship and commitment)

Available to share past proposals to offer scaffolding for the proposal process.

Long Term Vision: With the gradual launch of the NEPTUNE Foundation DAF Fund, our hope is that after successfully raising funds, we can act as Co-funders & Co-stewards for all projects – with a portion of each project project dedicated towards philanthropic giving and offerings.

LEGAL CODES

We have a legal, accounting and contractual team to support with execution of contracts once we have come to the customized alignment.

We are exploring a partnership with an innovative law group that is re-envisioning the Legal contractual system based on the wisdom of decentralized systems (blockchain), etc., and cosmic consciousness encoded into their contractual templates. This is still a ways away from being ready, but we are ready to move in that direction.

COMMUNICATION CODES

We are largely all opted out of interference Matrix and unsubscribed from most social platforms. We opt into intentional, thoughtful and clear emails sent directly to our Concierge: concierge@tingkelly.com.

We are exploring prototype the new system ZERO as an integrated white-label platform – but until then, working highly off-line and simply until the technologies are ready. Thank you for your adaptability & respect for these Ways.
